

# San Juan County Land Use Management Plan

## Citizen's Choice Meetings Round 2

San Juan County recently conducted a round of Citizen Input Meetings throughout the county to collect input on the implementation priorities and strategies from the 2007 Growth Management Plan. At these meetings, feedback regarding a variety of land use issues was provided via the use of keypad polling. Citizens also engaged in a planning exercise that depicts where they believe future growth should be designated. Please visit [www.sanjuancountyplanning.com](http://www.sanjuancountyplanning.com) for results of the Round 1 meetings.

The results of the Round 1 meetings will be presented along with potential solutions at the upcoming meetings listed below. The Round 2 Meetings have been titled the "Citizen's Choice" meeting. At these meetings, citizens will use keypads to choose their preferences that will ultimately become a recommendation to the County in developing a Land Use Management Plan. If you miss the meetings, other citizens will be making the "Choices" on your behalf. **Don't miss this meeting!**

### **Blanco/Navajo Dam**

Monday, October 12, 2009

6:00-8:00pm
