COMMENT SHEET

Since 2005, San Juan County has been conducting public meetings to discuss how the county should manage future development in the unincorporated areas to protect the citizen's quality of life and economic opportunities. The number one issue derived from these input meetings was the need to address the trash and junk problem in the unincorporated areas of San Juan County.

For more information and to view copies of the proposed ordinances go to the project web site at www.sanjuancountyplanning.com , www.sjcounty.net ,the County Clerk's office or the County Executive Office booth at the County Fair (Aug. 9th-14th).
